WRITTEN OPERATIONAL PROCEDURES

The California Health and Safety Code requires that a written operational procedure for food handling and the cleaning and sanitizing of food-contact surfaces and utensils be submitted to and approved by this Division when an unenclosed Mobile Food Facility (MFF) is handling unpackaged food. The following information must be provided either by completing this form or included in a typed document. A copy of the procedures must be kept on the MFF during hours of operation. Any change to this procedure, menu, equipment, assigned commissary, or Mobile Support Unit (MSU) will require approval by this Division.

FOOD HANDLING PROCEDURES

1. Provide a complete list of menu items to be sold:
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

2. What facility will the food be purchased from?
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

3. Where will the food be stored?
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

4. Describe how each food item will be prepared, including what type of equipment and utensils are used to prepare each food item.
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

5. How will cold (41 or lower) and/or hot (135 or higher) foods be maintained at proper holding temperatures?
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

6. How will food be served from the MFF? Include all utensils used when serving food items.
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
CLEANING & SANITIZING OF FOOD CONTACT SURFACES, EQUIPMENT AND UTENSILS

7. How will utensils and food contact surfaces be cleaned and sanitized during hours of operation?

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

8. Choose which type of sanitizer solution will be used for sanitization of utensils:

☐ Chlorine-contact with a solution of 100 parts per million (ppm) for at least 30 seconds.

☐ Quaternary Ammonium-contact with a solution of 200 ppm for at least one minute.

☐ Iodine-contact with a solution of 25 ppm for at least one minute.

9. The potable water tank must be filled at a commissary. How will the potable water tank be filled?

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

10. Where and how will the waste water from the wastewater tank be disposed of?

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

11. The potable water tank must be cleaned at a commissary. How will the tank be cleaned and sanitized?

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

12. How will the unenclosed MFF be transported and protected from contamination? Where will it be stored during non-operational hours?

_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

13. Is the MFF serviced by a MSU? If yes, proceed to #14.

☐ YES ☐ NO
MFFs OPERATING WITH A MOBILE SERVICE UNIT (MSU)

DBA of MSU: ____________________________________________

14. The MSU potable water tank must be filled at a commissary. How will the MSU provide potable water to the MFF tank?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

15. Where and how will the waste water from the wastewater tank be disposed of?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

16. How will the MSU be cleaned and sanitized?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

17. How will the MSU be transported from the commissary to the MFF location?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

18. Where will the MSU be stored?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

19. How will food being transported on the MSU be protected from contamination?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

20. How will the temperature of cold and hot foods be maintained in the MSU?
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________
____________________________________________________________________________________________________________________________________________________________________________________

A COPY OF THE APPROVED OPERATIONAL PROCEDURE SHALL BE KEPT ON THE MFF DURING PERIODS OF OPERATION.
