

Ventura County Locally Important Animal Species Data Form

County of Ventura · Resource Management Agency · Planning Division

800 S. Victoria Avenue, Ventura, CA 93009-1740 • (805) 654-2478 • www.vcrma.org/planning

DIRECTIONS: Please fill out one form for each species you believe should be added to or removed from the Locally Important Animal List. Please provide available locality data and citations for the sources used to support your recommendation that a species either meets the criteria or no longer meets the criteria to be listed as Locally Important.

After completing this form, please click the **SUBMIT** button and follow the instructions. If you wish to send by **FAX** or **Postal Service**, please send completed form to:

Jennifer Welch, County of Ventura, RMA-Planning Division L#1740, 800 S. Victoria Avenue, Ventura, CA 93009; jennifer.welch@ventura.org; Phone (805) 654-2465; Fax (805) 654-2509

Participant(s) completing this form:
Taxonomic Group (Fish, Bird, etc.):
Scientific Name:
Common Name:

1. Is the animal species declining throughout its range? Please cite the data used to support your finding.

2. Is the animal species in danger of extirpation in Ventura County? Please cite the data used to support your finding.

3. Does the range of this animal species in Ventura County represent 10 percent or more of its entire known range in the world? Please cite the data used to support your finding.

4. Are there five (5) or fewer element occurrences¹ of this species in Ventura County? Please cite the data used to support your finding and provide location data.

5. Are there less than 2000 acres that sustain the species' population in Ventura County? Please cite the data used to support your finding and provide location data.

¹ Element Occurrence Definitions:

1. Animals with Limited Mobility (e.g., most invertebrates, amphibians, reptiles, small mammals, and resident birds): A breeding population.

2. Mobile Animals (e.g., migratory birds, fish and larger mammals): The location of breeding areas (including nesting territories, dens, and leks) or parts of the range of a mobile population that contribute to the persistence of that population, such as roosts, overwintering areas, migration areas and staging areas.
