Mobilehome or Recreational Vehicle as Temporary Dwelling During Construction - A mobilehome or recreational vehicle may be used by the owner(s) of a lot as a temporary dwelling unit for 12 months during construction of a residence for which a building permit is in full force and effect on the same site. A second dwelling unit over 700 feet may be approved if the existing single-family dwelling on the property does not exceed 700 square feet in gross floor area and does not exceed the height limit for accessory structures in the zone. In such cases, the larger dwelling shall be considered the principal dwelling with regard to height and setback standards, and the smaller dwelling shall be considered the second dwelling with regard to future expansions. In all cases, total off-street parking requirements for the dwellings must be met.
 - (3) The unit shall comply with the parking requirements for second dwellings.

 - (6) A second dwelling unit will not be allowed in areas where adequate water supply, water quality and sewage disposal cannot be demonstrated.
 - (7) No more than one second dwelling unit is allowed on each lot.
 - (8) No other accessory structure shall be combined with a detached second dwelling unit, except that a second dwelling unit may be attached to a garage or carport. If a second dwelling unit is attached to a garage, the common wall between the garage and the second dwelling unit may not be longer than is necessary to accommodate a standard parking space; the garage area abutting this common wall may be used only for vehicle parking or accessory storage of household items. A second dwelling unit may be attached to a garage or carport that is itself attached to another accessory use such as a recreation room or workshop, provided that there is no common wall between the second dwelling and the other accessory use.
